

SOUNDVIEW Executive Book Summaries®

Blitz through the year's best business books

In less time than it takes to read the newspaper!

It's every executive's dilemma: Too much to read! But successful business people don't let the books pile up, now that there's a smart way to stay on top of what you need to know:

Soundview Executive Book Summaries.

While you attend to running your business, our skilled editors monitor the hundreds of new business books published each year. We screen out the losers. The time-wasters. The me-too titles that don't deserve your attention. Then we select the 2% that can make a measurable difference to the work you do.

Next, we prepare a fast-reading, 8-page PRINT SUMMARY and 20-minute AUDIO SUMMARY that presents the key ideas and important insights of the books you want to read. You get the substance of each book, expertly extracted in a way that preserves the author's spirit and intent.

That way, you will find practical techniques you can use immediately.

20 minutes is all it takes.

Executive Book Summaries get to the heart of the matter fast. Just 20 minutes per book! You save hundreds of hours and gain the confidence to respond intelligently to new challenges.

And you remember more! A scientific study shows that you retain the ideas in a summary more easily than the same ideas in a book.

How many of the books shown here have you been meaning to read? You could already be profiting from their insights if you'd subscribed just one year ago.
