NEWS RELEASE

“AWARD WINNING TECHNOLOGY COMPANY BITHGROUP TECHNOLOGIES LAUNCHES ITS SECOND ANNUAL SCIENCE TECHNOLOGY ENGINEERING MATHEMATICS PROGRAM FOR AREA HIGH SCHOOL MALES ”

On Monday, July 6, 2009, beginning at 9:00am, [BITHGROUP Technologies](http://www.bithgroup.com) launched its Science Technology Engineering Mathematics (STEM) summer program for high school males for the second consecutive year. High School males from Baltimore City and Howard County will participate in this unique holistic STEM Program.

During this engineering oriented summer program, the students will learn about alternative energy sources such as Wind, Solar, Water and Hydrogen. They will also research the uses of current technologies such as WiFi, Bluetooth, GSM and VOIP. The students will participate in community service, visit colleges, universities, technical museums and worksites. One of the unique features of this summer's program will be, when the students build Hydrogen Fuel Cell cars and race them through an obstacle course. Additional discussion topics include entrepreneurship, leadership, teamwork, time management, conflict management, career readiness, financial management and organizational skills.

Dr. Robert Wallace, who is often referred to as a leading expert on technology and entrepreneurship, heads up BITHGROUP Technologies, a small information technology business based in the historic Mount Vernon Cultural District of West Baltimore.

A multistate-certified MBE headquartered in Baltimore, Maryland, BITHGROUP Technologies also has offices in Pennsylvania and Alabama. The company has helped numerous businesses succeed in implementing enterprise-wide technology solutions, instituting cross-boundary reforms and applying sound engineering concepts. BITHGROUP Technologies regularly embraces and masters new information technologies, human learning enhancements, and training tools to provide added value to its customers. The company is dedicated to assisting other companies leverage their two most important assets: people and technology. This ideal is part of Wallace's unique business module for success.

In addition to its solid reputation for across-the-board excellence, BITHGROUP enjoys strategic relationships with many of the country's most successful corporations. These partnerships include: Accenture, IBM, SAIC (Science Applications International Corporation), Microsoft, Aruba, EDS and Avaya, to name a few.
